PERMIT SPECIFICATIONS

- SECTION 1. The total cost of all construction and maintenance of the work specified shall be borne by the Applicant, his grantees, successors, and assigns; except that the City will maintain the shoulder of the roadway.
- SECTION 2. It is understood by the Applicant that the City does not assume any responsibility for the removal or clearance of snow, ice or sleet, or the opening of windrows of such material, upon any portion of the approach even though snow, ice, or sleet is deposited or windrowed on said approach by its authorized representative engaged in normal winter maintenance operations.
- SECTION 3. No approach shall be considered as completed until checked and approved by the City of Bismarck. Surfacing may be omitted on field entrances if so specified in the application.
- SECTION 4. An approach, as referred to in the Permit, shall be the traveled area between the roadway-surface and the adjacent right-of-way line. Said approach shall be used only for the purpose of providing entrance to and exit from the Applicant's property.
- SECTION 5. No approach, or improvement constructed on the street right-of-way shall be altered or relocated without permission of the City of Bismarck.
- SECTION 6. The Applicant agrees to perform all work in accordance with this Permit, and to indemnify and hold harmless the City of Bismarck, its officers and employees from all liability, judgments, costs, expenses, and claims growing out of damages, or alleged damages, of any nature whatsoever, to any person or property arising out of performance of said work, or the existence of said approaches.
- SECTION 7. It is understood by the Applicant that the location, construction, and maintenance of approaches are under the supervision of the City of Bismarck at all times, and that in granting this permit the City of Bismarck waives none of its powers or rights to direct the removal, relocation, and/or property maintenance in the future of any approaches within the right-of-way of the City.
- SECTION 8. The Applicant shall install a steel fence post at each end of the culvert. The top of the post shall be a minimum of 3½ feet above the ground line.
