

The Bismarck City Commission approved the contract for engineering consulting services with Stantec at the April 24, 2018, commission meeting. Stantec will evaluate Utility Operation enterprise fund and user rates involving the water, sewer, and stormwater divisions. The study will review and assess the existing fee structure, development cost policies, special assessments, and surcharges to identify strengths and weaknesses.

[Question & Answer: Why higher rate for tier of 25 units and above](#)
